DESCRIPTION

The KODA™ Solar Mosaic Square Bollard Light puts a dazzling lighting effect on your walkway, lawn or garden. Enhance the features of your home's outdoor landscape at night. At 15 lumens, this LED pathway light projects a crisp and contrasty organic light pattern. Stately 14in tall bollard has a steel body that should withstand the elements far longer than plastic lights. Painted with a matte black finish that also protects from corrosion. Light-up your Summer nighttime parties (and fall in love with your yard again), with KODA's Solar Mosaic Square Bollard Pathway Light!

Features

15 Lumens of Light

Projects crisp mosaic light pattern on the ground

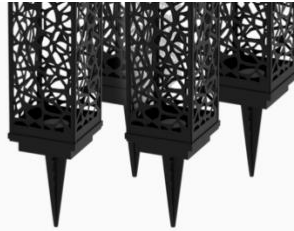

Weather Resistant Metal

Strong and sturdy - Lasts through all seasons for years to come

Solar Powered

No wiring needed, easy to move around -
Lasts up to 8 hours each night

Dusk-to-Dawn Sensor

Automatically turns your light on at night,
then off during the day

Solar Powered Lighting Bollard

Powered by the Sun's UV rays, this light requires no wiring,
no electrical outlets, and ZERO energy costs! Place these
bollards anywhere you need dazzling light.

Set the Right Mood

If you like seeing organic light patterns at night - you will
love KODA's Square Mosaic Bollard Light. Adds some safety
lighting to your yard too!

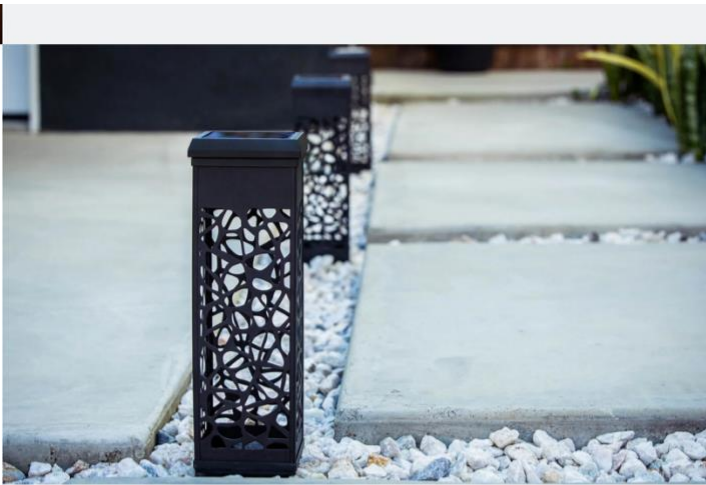

Weather Resistant Metal

This 14in tall square bollard light should stand up to the
elements in your yard for years to come. If you are "so-over"
cheap plastic solar lights, treat yourself to this stunning
yard light.

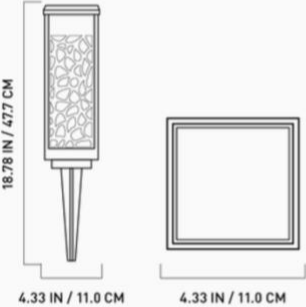

Ideal for Pathways and Gardens

Line outdoor pathways, walkways, front yards, back yards, and garden borders.
