DESCRIPTION

KODA™ Pro Series 5" Round LED Ceiling Lights offer professionals and DIY'ers the ability to switch between five different color temperatures - essentially a 5-in-1 flushmount light! A switch on the rear side lets you choose the white color you want prior to installation. Dimmable with standard LED dimmer switches. Lightweight plastic flush mount ceiling light uses edge-lit technology for bright, even illumination with no hot spots - and zero bulbs to change out. This mini round downlight is great for walk-in closets, pantries, and tight hallways.
