

PROFAB: Engineered Electrical Systems

Your partner in prefabrication!

PROFAB helps electrical contractors reap *more profit* on big jobs. We manufacture electrical products and systems off-site, lowering your onsite liability. We ship these assemblies when and how you need them, minimizing jobsite congestion. Finally, your crew can rough-in these products right out-of-the-box with little supervision.

PROFAB's team of electricians help you with the design and planning process. Your electrical assemblies are built-to-order in a controlled, 50,000 Sq. Ft. facility. Our **UL Listed assemblies** undergo a strict quality control procedure. We work with your on-site supervisors to plan deliveries, submit RFIs, and pivot strategies as-needed. Here at PROFAB, we are not just your outsourced prefab shop...we are your business partner in long-term success.

About Orbit Industries

PROFAB is a service arm of Orbit Industries, Inc. an electrical manufacturer with over 20 years in the business. Orbit manufactures electrical construction and lighting products, including innovative prefab components. Our company is **family-owned and operated**. Founded by a former electrician, many of our staff (including the PROFAB team) were former contractors as well. Our products are UL or ETL Listed, Warrantied, and designed with contractor ease-of-use in mind.

How The Profab Process Works

Engineer and Quote

- **Computer Aided Drafting (CAD) based on your Project Drawings:** identify raceway paths and critical junction box points
- **Collaborate and Plan** using Bluebeam Studio Projects
- **Quick Turnaround:** get your quotes in 5 days or less
- Right Parts for the Job specified by **electrical contractors**
- **Accurate Cost Estimates** for components and assembly services

Manufactured Assemblies

- Package brackets with attached junction boxes, devices and rings
- MC Cable and conduit stub attachment
- Enclosures with custom knockouts
- Manage and deliver ready-to-install **switch gear packages**, including load centers
- Underground duct banks
- ***UL Listed Assemblies** undergo strict quality control standards

Room-in-a-Box

- Rough-in electrical assemblies right **out of the box!**
- **Just-in-Time Delivery** we'll work with you to ship the right products at the right time, reducing clutter and confusion
- **Clearly marked Packaging** for efficient project staging
- **Printed I.D. Tags** allow for fast and easy layout of electrical assemblies
